"UN BALLO IN MASUHERA" AT THE THEATRE ROYAL.

The fifth performance of the Italian Opera Hall, on Saturday night before a large and fashienable audience, among whom were His Excellency the Administrator, Lieut.-General Donovan and Mrs. Donovan. The opera selected for His Excellency the Administrator has made the representation was Verdi's "Un Ballo in Masfollowing appointments in the General Post chera," a piece that requires a strong cast, and Office :-Mr. A. M. Place to be Marine Sorter, malculated to tax the resources of a more powerful company than the present. The opera was written originally for production at the Theatre San Carle at Naples, but, owing to the objections of the Censor, withdrawn by the talented Alco pictacomposer, and eventually brought out at Rome. to Boston, America, and the title changed from "Gustavus the Third" to "Un Ballo in Mas- Evonymus gibber. ohera." But though the scene of the opera was thus altered it still retained an essentially Knompferia elegans. Italian dress, rendering it a somewhat incongruous production, true neither to history nor reduceable to probability. The music is good, but the airs are less captivating than those of some of the composer's other better known works, and the choruses and concerted pieces rethe Imperial Household will now of course With a view to this, the Tsukuşa Kan takes a quire to be thoroughly well rendered to ensure a

THE BOTANIC AND AFFORESTATIO DEPARTMENT.

REPORT FOR 1881 The following Report from the Superintendent, Botanic and Afforestation Department, is published for general information:-

Brtanio Garden, 22nd March, 1892. Sir. I have the honour to report on the Botanical and Afforestation Department for the

coption, no great disturbing influence occurred to cause much damage or destruction to plants or grounds. In former years the walks have sometimes received immense damages during heavy falls of rainin the storms to which we are and Adams very eleverly performed a comic subject, but the experience which has been gained of these destructive rains has been brought to bear on; what-was, defective drain and water-channel works for their improvement. There are still some improvements required, but these will, I hope, as circumstances and means permit, be effected. The exception alluded to was a large land-slip which occurred in the Glencaly Ravine towards, the end of the rainy reason, carrying away a stone bridge and many tons of earth. The damage is still uhrepaired, but now that money required for its repair has been voted, I hope seen to see the necessary works commenced. The present appearance is a sad disfigurement to the beautiful ravine, as well as the absence of the bridge being an inconvenience to visitors wishing to use the walk between Robinson Road and the New Garden

3.—Another injurious infinence, wind, has a much less destructive power on plants and trees in the gardens than it had a few years ago when the trees were smaller. In 1874 the great typhoon worked enormous demage in the gardens, scarcely immense number having been totally destroyed On October 14th of the year under notice (1881) we experienced the outside of a typhoon: which although it blew with great violence, did gom-

visitors much the same as in previous years, but, I think, the number of children with amaks daily

5.—The work alluded to in paragraph No. 2 H. Michaelson, Liouts. W. S. B. Levett. J. of the report for 1880, viz., the transplanting and re-arrangement of trees and shrubs in the gardens has been continued and considerable improvements were effected, and some more space secured thereby. Owing to the very limited space available for further planting, it will be necessary to avoid planting large growing trees, and to confine ourselves more to select small sized trees and shrubs. To accommodate the large number of Chinese plants which should, and I places where they were no longer required. The body of officers, and applopising for thus tresmust be reserved for their reception.

Many kinds of trees here during which if better means for carrying it out could be the weakened condition of their houlth so secured, would be duly appreciated by those who would be glad of the opportunity to procure both old and new introductions. It might perhaps be advisable to make arrangements for plants being distributed, as in many other similar institutions. on payment of a small fee to cover cost of pro- injury to, and sometimes the destruction of the pagation, &c., to those who may be anxious to obtain plants, but who, in consequence of their having nothing in the way of plants or seeds to for in exchange, hesitate to apply for plants. We have been obliged to use the garden nursery for the propagation, for afforestation services, of trees which in consequence of their requiring more constant and close care and supervision than could be given them in distant nurseries. could be sufficiently well attended to elsewhere The work of rearing valuable and select kinds of trees is constantly increasing to meet planting reunirements, and in consequence of the gardens being entirely surrounded by private property no extension is possible except in that portion between the New Garden plateau on the north. Robinson Company was given at the Theatre Royal, City Road on the south, and Albany Road on the east, a piece of land which was set apart for the law Garden extensions by the Government about eleven years ago, and which has since been reserved for garden purpose, but which, for want of funds, has not been brought into order. This pioce of ground is so greatly needed for pressing lemands, and the cost of bringing it into order

would be small, that I could not too strongly arge its speedy completion. 7.—The following is a list of plants which dowered for the first time in these gardens :-Anthurium Schortzori. Phonix farinifera. Polargonium fragrants. . duorcus fissa. . Опетсив согдеа. iristolochia recurvilabra. Rhododendron Champione

8 .- The usual interchanges of plants and seed with other establishments, and individuals have been conducted. The facilities, however, for carrying on the exchanges with Queensland have been considerably reduced owing to the discontinuance of the E. & A. S. S. Company's steamers running so regularly to Brisbane as they did: and also, to some changes in the ad ministration of the Onconsland establishments.

Guards were appointed to protect trees and shrubs from the depredations to which they were constantly subject, and also to control the goatkeepers in regard to the lands used for grazing purposes. For the protection of the young trees t was found necessary to interdict certain lands for grazing purposes and grass outting, and to allot lands where goats and cattle might be permitted, and where grass might be cut, result of the appointments has been very catis-Tree outting has been very much checked, and the cutting of large pine treos, which had gone on very much has been almost entirely stopped, except at Little Hongkong, where there have been two or three instances of a number of good sized trees being felled and carried away. The villagers report that the outting was done by night by boat people who landed at Deep Water Bay. I have much reason for believing, however, that the villagers themselves are the culprits, and to put a stop to this tree outling it may be necessary to adopt more

SHANGHAI.- We have beard a rumour, which we have reason to hope is unfounded, that the Viceroy Li mining enterprises, he will be made responsible Han-chang is about to anticipate dismissal retirement. It is even said that he has already at his resignation to Peking: but from what we know of the Northern Viceroy's belief brother's innocence, we should be sorry to give a too hasty oredence to the report. Li chang has been devoting himself entirely to his aged mother for three months past, so that his public affairs have probably got into arrears

We hear from Chinese sources that the Viceov of Nanking has already begun to levy conibutious from wealthy natives for "the necessities of state." Two gentlemen of high position and large means, who recently paid their respects to His Excellency, are said to have taken the hints he threw out so for as to subscribe the respectable sum of Tis. 75,000 between them. The position of a Chinese who, in the receipt of State pay and enjoying an office-under Government

still manages to grow rich in the pursuit of

egitimate trade, is peculiarly open to this form of inmendo. There need be no doubt, however that all funds which find their way into the coffers of Tso Tsung tang will be judiciously and honestiv expended. We understand that a change in the socia habits of many Chinese in this settlement has taken place lately. Formerly when respectable merchants, or others of the same grade, wished o entertain a friend for a short time or to meet and talk over business or other matters they did so at the ten houses. But we are informed that the custom is now rapidly extending among these classes of meeting at a new and superior kind of Opium divans, that have lately been opened, where, in place of being obliged to meet ip crowded rooms, they find more privacy. They can either sit in the public saloon and have their pipes and conversation out of ear-shot of the general company, or they can hire private apartments. In former days a merchant or any Chinese who had dealings with foreigners, and consequently desired to bear a good reputation with them, endeavoured to conceal his fondness io

TEA MUSTERS.

Persons who send Musters of Tea through the lost in Tins are requested to have them made flat or square instead of round, as it is impossible to pack round tins securely in the mail The Contents and Value of Packages are re- bags. It is believed that the ten will travel more safely in flat tins, which are not so liable as round ones to be bulged in. 4 by 3 by 11 inches is suggested as a good

size. The tins should not have sharp corners. Many boxes of letters are received at the Post Office not sealed, that is to say, the box is fastened with sealing wax, but there is no im-

pression of a seal. The attention of boxholders is called to the necessity of carefully sealing such hores with some recognisable seal, and of sending a chitbook or receipt with them. The omission of the latter precantion leaves a doubt as to whether the contents of the box ever reached the Post Office: the emission of the former, as to whether part of them might not have been abstracted for the sake of the Postage Stamps.

RATES OF POSTAGE. Letters, per \ os.'..... 10 Cents.

Post Cards, cach Books, Patterns, and Commercial? Papers, per 2 oz. Newspapers & Prices Current, each with return receipt Commercial papers signify such papers as, though written by hand, do not bear the character of an actual or personal correspondence, such as invoices, deeds, copied music, &c. The charge is the same as for Books, but all packets of and under 4 os. weight are charged 5 Cents.

SOLDIERS' AND SAILORS' LETTERS. 1.-Privates in H.M. Army or Navy. Noncommissioned Officers.* Bandmasters Army Schoolmasters (not Superintending or First Class) Writers or Schoolmistresses may send half-ounce letters to the United Kingdom by mail at the rate of four cents (twopence) each. which may be prepaid either in Imperial or in Hongkong Stamps. By private steamer the postage is 2 cents (one penny). 2.—The same privileges apply to letters addressed to the Privates and Non-commessioned.
